WHEAT ought to bring a dollar a bushel this fall.

A RECEIVER has been appointed for the Duluth street railway.

In Wyoming bachelors are taxed \$2 each per annum. A female suffrage legislature passed the law.

A BROOKLYN policeman has saved \$40,000 by keeping his mouth shut and his hands behind him. Here is a hint to the gallant Brainerd force.

THERE is no excuse for tramps this year. Every man who wants work can find it and at good wages. The harvest fields of Dakota and Minnesota furnish it.

How about this big rubber trust in London, the heart of good old free trade England? Haven't the free trade organs been telling us for years that trusts were the outcome of protective tariff.

The grievance committee, representing the Northern Pacific engineers, is in St. Paul again and will hold a conference with General Manager Mollen. The exact nature of the possible grievance is not known.

"Of course Kentucky went democratic," remarks the Little Falls Herald. Kentucky was as sure to go democratic as the United States is to go republican in 1892. There are some things you can bank on.

In the advertising columns of New York papers a Brooklyn firm advertises gray wool blankets, weighing four pounds, at the price of \$1. The duty on those blankets was \$1.33. The question now arises as to whether the tariff is a tax or not.

THERE are a few papers in this section that were not caught by the "Substitution of Inferior Medical Preparations for Standard Articles," but not many. A. Frank Richardson, the Pioneer Press, and one or two other agencies reaped a big harvest and many country suckers helped them.

SOME years ago the tin roof on the Tabernacle church, which stands near a United States mint, was scraped and \$5,000 in gold was found on it. The gold comes from the mint with the smoke and as soon as it comes to the open air it falls. The water which falls on the roof of the mint is saved and strained and a great deal of gold is found in it.

COL. BOULETTE is quoted as saying that the crop of wolves in Minnesota this year is like everything else, first-class. "The bounty on wolves is \$3 a head between May and November, and \$5 between November and May. The number in our state, even at this liberal figure, does not decrease. There's too many honest men engaged in raising wolves for the good of our finances."

THE official figures show that in this country the amount of money in circulation in 1890 was about \$435,000,000, and the amount per capita was \$13.85. In 1895 the per capita amount was \$20.82. Twenty years later the per capita was \$23.02, while on the 1st of January last the amount was nearly \$1,529,000,000, with \$24.10 as the per capita allowance, the highest in the history of the United States. These are the official figures just issued by the treasury department. This is a little more money per capita than England has.

ONCE in a while some labor agitator or demagogue complains that labor saving machinery is depriving men of an opportunity to work, says the Tribune, but what could be done with the present crop without reapers and self-binders? In old self reaping days, it required at least five men to bind what a machine would do. The average wages paid then was \$3 a day. It would be an impossibility now to secure sufficient men to do the work of binding even at any price. As it is, with all the wonderful improvements in machinery, help is scarce and hard to obtain at \$2 a day.

THE Winnipeg Free Press takes the cable dispatches to task for stating that the Wetmore, of Duluth, had taken the first cargo of grain ever shipped from the great lakes to Liverpool without breaking bulk. In the first place the Wetmore's cargo was taken out at Kingston and transhipped to Montreal, where it was reloaded after it had run the St. Lawrence river rapids. The Wetmore could not possibly be brought back to the lakes without being cut in two and towed in sections up the St. Lawrence river canals around the rapids. In the second place, more than thirty years ago, Lawyer Lee, now of Cape Vincent, sailed a schooner, laden with grain, direct from Chicago to Glasgow.

THE St. James (London) Gazette takes a very gloomy view of the state of British trade, and to-day there appears in its columns and article commenting in a pessimistic manner upon the outlook for the manufacturing and other industries for Great Britain. It says: "Judging from the returns issued by the board of trade it looks as if we had already reached the end of good times. The great decline in the exports from Great Britain is undoubtedly due to the operation of the McKinley law in the United States. We have been told that the act would eventually prove a real misfortune to the United States, but its immediate object was to hit foreign manufacturers, especially those of Great Britain, and it is plainly evident that this object has been attained."

An alderman at Kansas City astonished the denizens of that place a few days ago by introducing an ordinance providing that after Jan. 1, 1892, all who drink liquors shall pay a tax into the city treasury for the privilege. Drinkers are divided into four classes: Beer drinkers; beer and wine, excepting champagne; beer, wine and whisky; champagne. The first is rated at \$20 a year, and the others respectively at \$25, \$30 and \$50. This is a new and novel idea.

A Mosquito Story. A telegram from Elizabeth, N. J., says that what was first supposed to be a dense storm cloud hovered over Elizabeth last night, but it proved to be a drove of mosquitoes, which scattered and filled the air, driving worshippers from the churches and drug clerks from their stores. Bonfires were built in several of the streets to drive the pests off, which were particularly voracious. Cows, horses and pedestrians were frantic, and telegraph operators were forced to engage the services of boys to diligently use fans in order that they might manipulate the keys.

Same Old Gas. A dispatch from Washington says Commissioner Dar Hall was with the acting commissioner of Indian affairs this morning for about two hours and will spend the greater portion of the afternoon with the acting secretary of the interior. No conclusion has yet been reached as to the method of procedure in dealing with the chippewas, but the conference now going on is pervaded with the one idea that it is better for the state and better for the Indians to have them removed to White Earth as speedily as possible and when Commissioner Hall returns he will commence active operations looking to that end. The Indians must move, and the sooner and more amicably they move the better it will be for them. The department will not permit further delays, but will enforce action of some kind and have the long-pending matter settled before snow flies again.

Crankism in Power. Suppose that the Alliance party could and should succeed in bringing about the changes announced in their Ohio platform, and place all transportation companies and saloons under governmental control, says the Superior Evening Telegram, and also establish their sub-treasury plan, would anything short of a revolution ever be able to depose a party once entrenched in office? Should their demands ever be acceded to, every person employed by the government to conduct its saloons and operate its railways would be a government official, dependent on the party in power for his continuance in office. Think for a moment what a factor in politics the saloon is now, when in the hands of private individuals, and then conceive of that mighty influence being turned over in its entirety to a political party in office; then consider all the employees of all the railroads in the country, from general managers to switchmen, each a government official and dependent on the continuance in power of a political party for the security of his position. Can any one doubt that this would be a hopeless task to ever try to defeat a party supported by such an army of office-holders. But, the saloon business and transportation companies do not create enough offices and give a political party power enough to cause them any apprehension and they want the government to loan the farmers money at 2 per cent. This would introduce another army of officers and clerks to attend to the mortgage department of the government. Besides this, every person giving a mortgage would become a political debtor to the party in power.

The amount of corruption that would be made possible by the realization of the Alliance party is simple inconceivable. The strange thing about it is how men of intelligence can be led to support measures fraught with so much peril to the nation. The celebration Saturday was made sad by the most terrible accident that it has been our lot to record. About nine o'clock Saturday morning, Dr. Winslow, John Grandy, Will Zimbrick, and Will Fox were engaged in discharging the cannon located west of the depot on the park. Two discharges had taken place and the third was being prepared. Zimbrick and Fox were at the mouth of the cannon using both arms in ramming the charge. John Grandy was at the rear of the cannon with his thumb upon it. Suddenly there was a flash, a report, Grandy's thumb was dislocated and shattered, and a rod from the cannon lay two men—Zimbrick and Fox—terribly mangled and blackened, weltering in their blood. The wounded men were taken to the Headwaters Hotel. Drs. Cutler, Walling and Winslow were soon in attendance. It was found that four amputations were necessary. Zimbrick's right arm below the elbow, his left below the shoulder. Fox's arms were both shattered below the elbow. Of the amputations Dr. Walling performed two, Dr. Cutler one, Dr. Winslow one. The faces were badly blackened. All day the physicians, with aid of friends, worked untiringly over the boys, but their condition was critical and life was uncertain. Seven days have now passed and with each day there seems an improvement in their condition and the chances are favorable for recovery. But they must go through life armless, a sad outlook for stalwart young men. Will Zimbrick is 23 and Will Fox 18 years of age.

Religious to a Fault. A Maine farmer who believes in a strict observance of the Sabbath, went out and killed a lamb which persisted in bleating on a recent Sunday afternoon.

The Pintsch System of Lighting Passenger Trains With Gas. The Pintsch system of lighting by means of compressed gas is pronounced by competent judges to be the best known means of car illumination.

It is safe under any and all circumstances. It is not affected by atmospheric changes. Burns more readily than any other light in use. Although very brilliant it is soft and agreeable. It emits no smoke, is odorless and perfectly clean. It is so effective and evenly distributed that travelers in any part of the car can read easily and comfortably.

It is simple in operation, absolutely reliable and of constant quality. Although the system has been in use on some of the leading lines in the east and in Europe for some time, the credit of first introducing it in the Northwest belongs to "The North-Western Line," C. St. P. & O. Ry. The vestibuled trains on this line, leaving Minneapolis at 6:50 p. m., St. Paul 7:30 p. m., daily, for Chicago and Milwaukee, are lighted throughout with this gas.

In addition to the superior arrangement and comfort of the sleeping cars on the vestibuled limited, this brilliant light adds to the appearance of the cars and passengers have expressed themselves as delighted with this method of lighting.

The Chicago, St. Paul, Minneapolis & Northern Railway Company is now constructing a plant in Minneapolis for the manufacture of Pintsch gas in order to supply the entire passenger equipment.

No line keeps its equipment more completely up to the latest standard than does "The North-Western Line," and it has never failed to provide any improvement likely to add to the comfort, safety or pleasure of through travel.

## A FORTUNE

Inherited by a few, is pure blood, free from hereditary taint. Catarrh, consumption, rheumatism, Scrofula, and many other maladies born in the blood, can be effectually eradicated only by the use of powerful purifiers. The standard specific for this purpose—the one best known and approved—is Ayer's Sarsaparilla, the compound, concentrated extract of Honduras sarsaparilla, and other powerful alteratives.

## SAVED

Several hundred dollars' expense, by using Ayer's Sarsaparilla, and would strongly urge all who are troubled with lameness or rheumatic pains to give it a trial. I am sure it will do them permanent good, as it has done me."—Mrs. Joseph Wood, West Plattsburgh, N. Y.

Dr. J. W. Shields, of Smithville, Tenn., says: "I regard Ayer's Sarsaparilla as the best blood medicine on earth, and know of many wonderful cures effected by its use."

"For many years I was laid up with Scrofula, no treatment being of any benefit. At length I was recommended to give Ayer's Sarsaparilla a trial. I did so, and in a few weeks I was able to get about."

about a dozen bottles, was restored to perfect health—weighing 220 pounds—and am now a believer in the merits of Ayer's Sarsaparilla.—James Foley, Mine Road, Brockton, Mass. (Limited), Victoria, Ky.

"My niece, Sarah A. Lott, was for years afflicted with scrofulous humor in the blood. About 18 months ago she began to use Ayer's Sarsaparilla, and after taking three bottles was completely cured."—E. Caffin, P. M., Losos, Utah.

THE FIGURE "9." The figure 9 in our date will make a long story. So many people now living will ever date a document without using the figure 9. It stands in the third place in 1890, where it will remain ten years and then move up to second place in 1900. It will stay there for one hundred years. There is another "9" which has also come to stay. It is the figure 9 in our date in the respect that it is the first place in the year 1890. LIEUT. PEARY'S exploring party to Greenland seems to be meeting with all the difficulties incident to life in the far north. Their vessel was fast in the ice for three weeks in the Straits of Bell Isle, and so lost that much valuable time at the start.

THERE is a Chinese puglist in this country who professes to yearn for a hostile meeting with John Sullivan. What a pity it is that Mr. Sullivan draws the color line so strictly; other, where there might be some hope of his speedy and permanent retirement at the hands of Peter Jackson, the Chinaman or some other tinted Hercules.

Is the trial of the new twelve-inch gun the government has run against a snag in the shape of detective powder. That used was of foreign make and burns too rapidly, subjecting the gun to a pressure that in active service might prove disastrous to those firing it and not particularly dangerous to the enemy.

Is summer, the correct thing, this to lounge on the hotel piazza and brag of your establishment and your personal greatness in town. In winter, it is good form to boast of your summer achievements at the shore or mountains. Men and women are curious creatures—always, of course, excepting themselves.

These excursion trains continue to meet with shocking accidents. It was one of these that carried 200 people to their death in France on Sunday, and it is the same kind of a train that might be held accountable for most of the shocking accidents on the rail in this country this season. Pretty soon people will begin to give excursion trains the slip, unless more care is exercised in managing them.

The California olive oil producers have taken a stand for the marketing of pure home-made oil. Imported olive oil has been mixed with cotton seed and other vegetable oils may be sold cheaper than the pure product, but if the California producers can convince the general public as to the purity of their oil, the home-made olive oil will eventually outsell the imported and adulterated oils.

### HEADACHES FROM THE EYES.

A Fruitful Cause of Trouble Not Often Suspected.

Among obscure causes of severe and obstinate headaches that physicians have been investigating lately are defects of the eyes. In one class of cases the headache is traceable directly to the use of the eyes, and is accompanied by such symptoms as weak feeling, watering, strained sensation, and inability to use them for any length of time. In another class of cases the cause of the headache is by no means evident, as the vision is apparently perfect, and the eyes themselves are free from pain, and generally the oculist is called in only as a last resort, after all other attempts to cure the headache have failed. Dr. W. H. Wilmer, of Washington, recently read before the Medical Society of the District of Columbia a paper on cases of the latter class. One patient was a boy who had suffered from frequent headaches since he began straining his eyes attending schools and for three days had had a constant dull pain in the forehead and temples. Upon examination a defect of the eye was discovered, and suitable glasses given, the headaches stopped. In a second case, an elderly man complained of great difficulty in reading, especially by artificial light, and he also had a more or less constant dull pain in the head, principally in the back part. Proper glasses cured both troubles. Another patient, a Wall street broker, had suffered for years from insomnia and headache, which extended from the back to the top of the head. Prolonged medical treatment had given no relief other than the production of sleep by hypnotics. Glasses to correct defective vision were supplied, and three days afterward the patient reported that he had been free from headache, and had slept without a hypnotic better than he had for years. Dr. Wilmer adds that as the correction of an ocular error can relieve headache, so the production of such a defect artificially may cause it. He gives from his own experience an instance of this kind. Some years ago he purchased colored glasses to wear while traveling. For a short time they were agreeable, but in the course of a half hour a headache came on. The glasses were irregularly concave. He says that flat smoked glasses, as a rule, should be worn, if a colored glass is necessary at all.

## Perham vs Brainerd.

The Brainerd base ball team went to Perham last Saturday and played a game of ball with the team of that city. The game resulted in an easy victory for Brainerd, the locals of that place being completely at the mercy of Frank Howe's curves, he striking out 18 of his opponents, and only 3 safe hits being made off his delivery, two by Plath and one by Moore. He was well supported behind the bat by J. Canan, he having only one pass ball during the entire game. The end of eighth, the Brainerd boys being somewhat fatigued from running so many tallies, time was called to count the score, the result being 30 for Brainerd and 6 for Perham, Brainerd still having an inning to spare. The first-base playing of Rogers for Brainerd, and the work of Beckley at third for Perham, were worthy of mention. The usual amount of kicking was kept up throughout the game by both teams and people in the grand stand at the umpires, Mr. Fred Paine, of this city, and Mr. Wm. Brooks, of Perham. It is hoped that a return game will be played soon to give the Perham boys satisfaction. Brainerd was well entertained while in that city, there being no one at the train to show them to a hotel, and none of the ball players showing up before or after the game, with the exception of one or two, the boys all enjoyed themselves nevertheless.

J. F. McGinnis, of the B. C. M. Co. store, went below this morning to select the fall stock of goods.

Alderman Stallman and family spent the fore part of the week at Gull Lake, at the Syndicate Cottage.

Dan. Caffery went to Detroit on Monday night with a view of looking over that thriving town for investment.

The Logging Situation.

The water is very low in the Mississippi above Minneapolis, says the Lumberman, but driving is continued successfully, and the supply of logs is adequate to the needs of the mills. The boom company is turning 2,500,000 feet a day steadily, and there are enough logs in sight to keep the mills running until the next drive gets in. The drive started from Brainerd Tuesday and contains about 150,000, 100 feet of logs. It was found necessary to leave about 12,000,000 feet in the fowage of the Brainerd dam. This will not come out of this season. These logs came out of the various river chiefly, and belong to the mill parties. With good luck the mills will saw most of the logs in the drive and those already in the boom limits before the end of the sawing season. Probably not to exceed 10,000,000 feet will be left in the river to commence sawing on next season. It is estimated that there is fully 100,000,000 feet of logs in the various tributaries and above Brainerd.

Highest of all in Leaving Power.—U. S. Gov't Report, Aug. 17, 1889.

## Royal Baking Powder

### ABSOLUTELY PURE

J. W. Kefford, the sick young man who forged checks on business men in nearly all the towns in northern Minnesota, Brainerd included, has been caught at Spokane Falls where he represented himself to be an agent of a bicycle firm and passed forged checks to pay his hotel bill. He will now have a chance to look out between the grates and speculate on the emptiness of life.

### Si Plunkard.

The most novel entertainment of whole year came to town yesterday. From appearances the aggregation might have been from Posen county, Ind. It was Farmer Lewis's company, and it presented "Si Plunkard," a roaring comedy, to a large audience at the Bijou last night. The play is something of the "Josh Whitcomb" order, but has many new and novel features, and a tinge of down-east farm life that is decidedly refreshing. Mr. Lewis, as Si Plunkard, the Yankee peddler and farmer, is a character, and he has surrounded himself with a good company. Many specialties are introduced, nearly every member of the company apparently being able to do something of the ordinary. The parade of the farmer band yesterday created a genuine sensation on the down-town streets, and will be repeated to-day and to-morrow. It is worth going miles to see. The same piece will be put on to-night and to-morrow matinee and evening. The engagement promises to be a highly profitable one.—St. Joseph, Mo., Daily Gazette, March 19th.

At the opera house one night only, Aug. 24th. Prices 75, 50 and 25c. Seats on sale at Cable's.

### Fine Clothing Made to Order.

Our new samples for fall and winter wear have just been received. Call and inspect them and leave your order at Geo. N. Day's.

Mrs. Dr. Howe and the Doctor's mother are visiting in Grand Rapids. The Doctor's sister is expected to arrive here next week to enjoy a short season among the lakes and woods.—Grand Rapids Eagle.

### Money in Street Railways.

Why don't some of the holders of "outside" real estate make a move to build a street railway in Little Falls? There is always an immense profit in these public improvements, and parties who desire to make money fast, should forward the scheme. In Brainerd the street railway simply quit, while in St. Cloud it appears that the owners have a good chance to give their plant away. It is time Little Falls had some street railway experience.—Transcript.

### A Royal Pass.

When people go to the theatre they like to feel that they have had "their money's worth," and naturally they are somewhat reluctant to patronize an attraction which is new to them and of whose merits they are therefore doubtful. For this reason it is not infrequently happens that really fine attractions play to empty benches, which would have been liberally filled, had the merits of the performance been more widely known. From the laudatory mention given in our local exchanges to Mr. Geo. C. Staley, in "A Royal Pass," we venture to assure our readers that no disappointment will wait on those who witness this performance. Mr. Staley is said to be the equal of our favorite dialect comedians, Emmet, Scanlan and Jos. Murphy. Mr. Staley's role is that of a Swiss Guide, in which he has ample opportunity to display his dramatic talent both in pathos and comedy, and his sweet singing voice in lullabies and yodling. His play is of a high order of literary merit, full of tender pathos and breezy comedy. Manager Harry Doel Parker has surrounded Mr. Staley with a fine cast of players, and promises that nothing will be left undone to render the initial appearance of this attraction one of the hits of the season. At the opera house, one night only, Aug. 25th. Prices 75, 50 and 25c. Seats on sale at Cable's.

What has become of the Crow Wing county fair? By all means try any length of time. In another class of cases the cause of the headache is by no means evident, as the vision is apparently perfect, and the eyes themselves are free from pain, and generally the oculist is called in only as a last resort, after all other attempts to cure the headache have failed. Dr. W. H. Wilmer, of Washington, recently read before the Medical Society of the District of Columbia a paper on cases of the latter class. One patient was a boy who had suffered from frequent headaches since he began straining his eyes attending school and for three days had had a constant dull pain in the forehead and temples. Upon examination a defect of the eye was discovered, and suitable glasses being given, the headaches stopped. In a second case, an elderly man complained of great difficulty in reading, especially by artificial light, and he also had a more or less constant dull pain in the head, principally in the back part. Proper glasses cured both troubles. Another patient, a Wall street broker, had suffered for years from insomnia and headache, which extended from the back to the top of the head. Prolonged medical treatment had given no relief other than the production of sleep by hypnotics. Glasses to correct defective vision were supplied, and three days afterward the patient reported that he had been free from headache, and had slept without a hypnotic better than he had for years. Dr. Wilmer adds that as the correction of an ocular error can relieve headache, so the production of such a defect artificially may cause it. He gives from his own experience an instance of this kind. Some years ago he purchased colored glasses to wear while traveling. For a short time they were agreeable, but in the course of a half hour a headache came on. The glasses were irregularly concave. He says that flat smoked glasses, as a rule, should be worn, if a colored glass is necessary at all.

### Perham vs Brainerd.

The Brainerd base ball team went to Perham last Saturday and played a game of ball with the team of that city. The game resulted in an easy victory for Brainerd, the locals of that place being completely at the mercy of Frank Howe's curves, he striking out 18 of his opponents, and only 3 safe hits being made off his delivery, two by Plath and one by Moore. He was well supported behind the bat by J. Canan, he having only one pass ball during the entire game. The end of eighth, the Brainerd boys being somewhat fatigued from running so many tallies, time was called to count the score, the result being 30 for Brainerd and 6 for Perham, Brainerd still having an inning to spare. The first-base playing of Rogers for Brainerd, and the work of Beckley at third for Perham, were worthy of mention. The usual amount of kicking was kept up throughout the game by both teams and people in the grand stand at the umpires, Mr. Fred Faine, of this city, and Mr. Wm. Brock, of Perham. It is hoped that a return game will be played soon to give the Perham boys satisfaction. Brainerd was well (7) entertained while in that city, they being no one at the train to show them to a hotel, and none of the ball players showing up before or after the game, with the exception of one or two, the boys all enjoyed themselves nevertheless.

J. W. Kefford, the slick young man who forged checks on business men in nearly all the towns in northern Minnesota, Brainerd included, has been caught at Spokane Falls where he represented himself to be an agent of a bicycle firm and passed forged checks to pay his hotel bill. He will now have a chance to look out between the grates and speculate on the emptiness of life.

### St. Plunkard.

The most novel entertainment of whole year came to town yesterday.

From appearances the aggregation might have been from Posey county, Ind. It was Farmer Lewis's company, and it presented "St. Plunkard," a comedy, to a large audience at the Bijou last night. The play is somewhat on the "Josh Whitcomb" order, but has many new and novel touches, and a tinge of down-east farm life that is decidedly refreshing.

Mr. Lewis, as St. Plunkard, the Yankee peddler and farmer, is a character, and he has surrounded himself with a good company. Many specialties are introduced, nearly every member of the company apparently being able to do something out of the ordinary.

The parade of the farmer band yesterday created a genuine sensation on the down-town streets, and will be repeated to-day and to-morrow. It is worth going miles to see. The same piece will be put on to-night and to-morrow matinee and evening. The engagement promises to be a highly profitable one.—St. Joseph, Mo. Daily Gazette, March 13th.

Money in Street Railways.

Why don't some of the holders of "outside" real estate make a move to build a street railway in Little Falls? There is always an immense profit in these public improvements, and parties who desire to make money fast, should forward the scheme. In Brainerd the street railway simply quit, while in St. Cloud it appears that the owners have a good chance to give their plant away. It is time Little Falls had some street railway experience.—Transcript.

A Royal Pass.

When people go to the theatre they like to feel that they have had "their money's worth," and naturally they are somewhat reluctant to patronize an attraction which is new to them and of whose merits they are therefore doubtful. For this reason it not infrequently happens that really fine attractions play to empty benches, which would have been liberally filled, had the merits of the performance been more widely known. From the laudatory mention given in our local exchanges to Mr. Geo. C. Staley, in "A Royal Pass," we venture to assure our readers that no disappointment will wait on those who witness this performance. Mr. Staley is said to be the equal of our favorite dialect comedians, Emmet, Scanlan and Jos. Murphy. Mr. Staley's role is that of a Swiss Guide, in which he has ample opportunity to display his dramatic talent both in pathos and comedy, and his sweet singing voice in lullabies and yodling. His play is of a high order of literary merit, full of tender pathos and breezy comedy. Manager Harry Doel Parker has surrounded Mr. Staley with a fine cast of players, and promises that nothing will be left undone to render the initial appearance of this attraction one of the hits of the season. At the opera house, one night only, Aug. 25th. Prices 75, 50 and 25c. Seats on sale at Cable's.

The Logging Situation.

The water is very low in the Mississippi above Minneapolis, says the Lumberman, but driving is continued successfully, and the supply of logs is adequate to the needs of the mills. The boom company is turning 2,500,000 feet a day steadily, and there are enough logs in sight to keep the mills running until the next drive gets in. The drive started from Brainerd Tuesday and contains about 150,000,000 feet of logs. It was found necessary to leave about 12,000,000 feet in the fowage of the Brainerd dam. This will not come out of this season. These logs came out of the Prairie river chiefly, and belong to various parties. With good luck the mills will saw most of the logs in the drive and those already in the boom limits before the end of the sawing season. Probably not to exceed 40,000,000 feet will be left in the river to come down next season. It is estimated that there is fully 100,000,000 feet of logs in the various tributaries and above Brainerd.

### HEADACHES FROM THE EYES.

A Fruitful Cause of Trouble Not Often  
Suspected.

Among obscure causes of severe  
and obstinate headaches that physi-  
cians have been investigating lately  
are defects of the eyes. In one class  
of cases the headache is traceable  
directly to the use of the eyes, and is  
accompanied by such symptoms as  
weak feeling, watering, strained sen-  
sation, and inability to use them for  
any length of time. In another class  
of cases the cause of the headache is  
by no means evident, as the vision is  
apparently perfect, and the eyes  
themselves are free from pain, and  
generally the oculist is called in only  
as a last resort, after all other at-  
tempts to cure the headache have  
failed. Dr. W. H. Wilmer, of Wash-  
ington, recently read before the Medi-  
cal Society of the District of Columbia  
a paper on cases of the latter class.  
One patient was a boy who had suf-  
fered from frequent headaches since  
he began straining his eyes attending  
schools and for three days had had a  
constant dull pain in the forehead and  
temples. Upon examination a defect  
of the eye was discovered, and suit-  
able glasses being given, the headaches  
stopped. In a second case, an elderly  
man complained of great difficulty in  
reading, especially by artificial light,  
and he also had a more or less con-  
stant dull pain in the head, principal-  
ly in the back part. Proper glasses  
cured both troubles. Another patient,  
a Wall street broker, had suffered for  
years from insomnia and headache,  
which extended from the back to the  
top of the head. Prolonged medical  
treatment had given no relief other  
than the production of sleep by  
hypnotics. Glasses to correct defec-  
tive vision were supplied, and three  
days afterward the patient reported  
that he had been free from headache,  
and had slept without a hypnotic bot-  
tle for the first time in years. Dr. Wil-  
mer said that as the correction of an  
ocular error can relieve headache, so  
the production of such a defect arti-  
ficially may cause it. He gives from  
his own experience an instance of the  
kind. Some years ago he purchased  
colored glasses to wear while travel-  
ing. For a short time they were agree-  
able, but in the course of a half  
hour a headache came on. The  
glasses were irregularly concave. He  
says that flat smoked glasses, as a  
rule, should be worn, if a colored  
glass is necessary at all.

miss it.

Co. K was honored by the presence  
of Lieut. Mandlin on Sunday and  
Monday. That gentleman is the in-  
specter of small arms practice and  
his business here was to select a reg-  
imental company team of marksmen.  
After practice Lieut. Mandlin selected  
F. W. Britton, W. G. Percy, J. W. Brit-  
ton and John Britton to serve in that  
capacity.

The celebrated Italian premier  
dancers, Miles, Vincenzina and Con-  
cettina Chittin, from the San Carlos  
Theatre Naples, and the Apollo  
Theatre Rome, were tendered a recep-  
tion at the Palace Hotel on their ar-  
rival in San Francisco. They are  
under engagement to Manager W. J.  
Gilmore, and will appear in the ballets  
of "The Twelve Temptations" which  
will be seen in this city on the 9th of  
September.

### Perham vs Brainerd.

The Brainerd base ball team went  
to Perham last Saturday and played  
a game of ball with the team of that  
city. The game resulted in an easy  
victory for Brainerd, the locals of that  
place being completely at the mercy  
of Frank Howe's curves, he striking  
out 18 of his opponents, and only 3  
safe hits being made off his delivery,  
two by Plath and one by Moore. He  
was well supported behind the bat by  
J. Canan, he having only one pass ball  
during the entire game. The end of  
eighth, the Brainerd boys being some-  
what fatigued from running so many  
tallies, time was called to count the  
score, the result being 30 for Brainerd  
and 6 for Perham, Brainerd still hav-  
ing an inning to spare. The first-base  
playing of Rogers for Brainerd, and  
the work of Beckley at third for Per-  
ham, were worthy of mention. The  
usual amount of kicking was kept up  
throughout the game by both teams  
and people in the grand stand at the  
umpires, Mr. Fred Paine, of this city,  
and Mr. Wm. Brooks, of Perham.  
It is hoped that a return game will  
be played soon to give the Perham boys  
satisfaction. Brainerd was well (en-  
tertained while in that city, there be-  
ing no one at the train to show them  
to a hotel, and none of the ball play-  
ers showing up before or after the  
game, with the exception of one or  
two, the boys all enjoyed themselves  
nevertheless.

J. F. McGinnis, of the B. C. M. Co.  
store, went below this morning to  
select the fall stock of goods.

Ruit Atkinson, also Mr. and Mrs. D.  
M. Clark.

The N. P. company will build a \$1-  
500 depot at Battle Lake, on the  
branch. That town is getting to be  
quite a pleasure resort.

A. L. Hoffman and family and lady  
friends from Boston, are rusticiating  
at Gull Lake this week, on the historic  
grounds of the old Indian Mission.

W. P. Andrus, of the state game  
and fish commission, was in the city  
on Wednesday, and was entertained  
at Gull Lake by a party of friends.

Henry Sitherwood left this morning  
for Stevens Point, Wis., on receipt of  
a telegram announcing the sad news  
of the death of his father in that city.

Johnnie Congdon shot a bullet from  
a 22-calibre revolver through his right  
index finger at White Sand Lake on  
Wednesday. Unlike most accidents  
of the kind he knew it was loaded.

The St. Cloud Journal-Press says

the firm, Mr. J. J. Howe, Jr., and Mr.  
W. F. Edelbrock taking an interest.

Mrs. J. C. Congdon is entertaining  
a party of young friends at White  
Sand Lake this week, among the num-  
ber being Miss Nettie Coventry, Miss  
Maggie McPherson, Miss Kittie Wal-  
ker and Miss Florine Merritt.

Messrs. E. Kitteridge and wife, W.  
R. Edwards and wife, and H. E. Em-  
erson and wife, all of Milwaukee,  
arrived in the city on Tuesday, and are  
being entertained by Mr. and Mrs. C.  
N. Parker at their cottage at Long  
Lake.

J. A. Van Dyke, clerk of the Wind-  
sor hotel at Duluth, and Miss Belle  
Riddell, of this city, were married at  
Duluth on Thursday evening, by the  
Rev. H. H. Barber. The young  
couple are well and favorably known  
in this city, the bride being the only  
daughter of Hugh Riddell, of this  
city. Congratulations are in order.

The Curtis & Lawrence mull shut

Sidetracked the Tramps.

Last Friday night between 75  
and 100 tramps got on a freight train at  
Staples and when the train arrived  
here the conductor telegraphed to  
Supt. Greene, asking as to what should  
be done with the fellows. The su-  
perintendent telegraphed back to have  
them all put into two box cars, fasten  
the doors and sidetrack the cars at  
Amboy. The instructions of the su-  
perintendent were followed. As Am-  
boy is nothing but a "sidings" the  
feelings of the tramps when they dis-  
covered their whereabouts can be bet-  
ter imagined than described.—

**ABSOLUTELY PURE**

J. W. Kefford, the sick young man  
who forged checks on business men  
in nearly all the towns in northern  
Minnesota, Brainerd included, has  
been caught at Spokane Falls where  
he represented himself to be an agent  
of a bicycle firm and passed forged  
checks to pay his hotel bill. He will  
now have a chance to look out from  
the grates and speculate on the empti-  
ness of life.

### Si Plunkard.

The most novel entertainment of  
whole year came to town yesterday.  
From appearances the aggregation  
might have been from Posey county,  
Ind. It was Farmer Lewis's company,  
and it presented "Si Plunkard," a  
roaring comedy, to a large audience  
at the Bijou last night. The play is  
somewhat on the "Josh Whitcomb"  
order, but has many new and novel  
features, and a tinge of down-east  
farm life that is decidedly refreshing.  
Mr. Lewis, as Si Plunkard, the Yankee  
peddler and farmer, is a character,  
and he has surrounded himself with  
a good company. Many specialties  
are introduced, nearly every member  
of the company apparently being able  
to do something out of the ordinary.  
The parade of the farmer band yester-  
day created a genuine sensation on  
the down-town streets, and will be re-  
peated to-day and to-morrow. It is  
worth going miles to see. The same  
piece will be put on to-night and to-  
morrow matinee and evening. The  
engagement promises to be a highly  
hopeful, and apparently endeavoring  
to lighten the labors and burden of  
sorrow of his devoted wife, with whom  
he had traveled from the morning to  
the shady side of life—long years full  
of pleasure and hope now forever  
ended. May our sister be consoled  
with the reflection that the memory of  
her husband—our brother—will ever  
remain green in the minds of his  
brethren, who, with her, now mourn.  
As a tribute to our deceased brother's  
memory, we recommend that the  
above be embodied in the records of  
the lodge, and that an engrossed copy  
be presented to his bereaved widow,  
whose welfare must ever remain a mat-  
ter of solicitude to the members of the  
order.

"Si Plunkard" is a graphic and  
amusing piece of rural life and  
characterizations. Mr. Lewis, in the  
title role of the Yankee peddler and  
farmer, is a character, and he has  
surrounded himself with a good com-  
pany. The farm scene with its thresh-  
ing machine at work captures the  
audience. Clever specialties are in-  
troduced by several of the company.  
The band is notably good.—San  
Francisco Daily Figure, May 19.
